**Objective**

*Continue to be competitive in the most demanding classes in the Club Racing Series, providing my sponsors with the best coverage on and off the track.*

**Results**

**2006 - 1<sup>st</sup> year**

*Successfully spent the first 3 weekends racing as many races as possible to achieve Amateur status including a top 10 finish in Heavyweight Supersport on my last Novice Weekend.*

*2 Amateur 3<sup>rd</sup> Places*

*4 Amateur Top 5*

*10 Amateur Top 10*

*4<sup>th</sup> Overall in Amateur GTO*

**2007 (as of July 1) - 2<sup>nd</sup> year (Amateur)**

*2 - 3<sup>rd</sup> Places*

*8 Top 10 Finishes out of 11 total races*

**Equipment**

*2005 Honda 600RR*

*Engine stock, G.M.D. Computrack fork internals, Penske Rear Shock, Akrapovic Titanium EVO Full Exhaust System, Power Commander, Pirelli DOT race and rain tires, Alpinestars leathers, Motophobia gloves, Sidi boots, Arai and Shoei helmets.*

**Goals**

*My goal is always to ride hard, but ride smart allowing me to gain as many points possible in each class. A top 3 finish for the year in the GTO class, and a top 8 finish for the year in Middleweight Supersport (MWSS), while continuing to achieve top 5 results in MWSS. I would like to continue racing in the CCS circuit by racing at a couple Summit Point and Virginia International Raceway events in 2007 and many more for 2008. It is my priority that every lap I make is a productive lap, always working to improve my race craft.*

**Additional Events**

*Second year working with Tony's Track Days as a control rider and instructor. I will be working 9 events out of 10 for 2007.*
